Subject: Status of Property 2 Post-Ex data

Nonresponsive based on revised scope

Can you please check to see if Tt has received the Property 2 post-ex data? If not, can you verify when the samples were received by the lab? Also, can you clarify if this is the shipment which was accidentally sent to the incorrect lab and if so, when the second lab received it? Also, can you please send me a copy of the CoC when you have time?

Thank you
Chris
